Terracotta 3.5.4

Terracotta 3.5.4 includes Ehcache 2.4.7 and Quartz 2.1.2

Terracotta Installer Binary. The installer binary contains the Terracotta open source kit bundled with Ehcache and Quartz, packaged as an installer. Just run `java -jar terracotta-3.5.4-installer.jar`.

Ehcache 2.4.7

Ehcache Distribution With Terracotta Support. This is the latest open source GA release of Ehcache with Terracotta support built-in. Download this if you want just the Ehcache core bundle, but want to be able to add Terracotta distributed caching with two lines of configuration.
