

Release Notes Ehcache 2.3.1

Release Notes for Ehcache 2.3.1

Ehcache 2.3.1 is a bug fix and enhancement release. The following issues are addressed in this release.

- [EHC-808](#) - Memory leak and thread-safety issue in CacheManager & Configuration
- [EHC-810](#) - Changes in ManagementService method signature in 2.3.0 broke backward compatibility
- CopyOnRead is now honored when used with the OffHeap setting
- RMI bootstrapping Replication now working with BigMemory
- Puts in onHeap fronted offHeap caches will now end up in the onHeap, unless onHeap is full
- BigMemory no longer faults elements out on update
